8209 West 20th Street, Suite B
Greeley, CO 80634-4699

Subject: Label Amendment – Adding ABN and graphics
Product Name: SURE HIT 25 INSECT KILLER
EPA Registration Number: 10806-41
Application Date: 13 March 2019
Decision Number: 549644

Dear Ms. Davis:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. “To distribute or sell” is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

Page 2 of 2
EPA Reg. No. 10806-41
Decision No. 549644

with FIFRA section 6. If you have any questions, please contact Dr. Helen Hull-Sanders by phone at 703-347-0243, or via email at hull-sanders.helen@epa.gov.

Sincerely,

Catherine Aubee, Chief
Invertebrate-Vertebrate Branch 1
Registration Division (7505P)
Office of Pesticide Programs

Black Jack Fly & Mosquito Spray II-Cherry; and
Black Jack Fly & Mosquito Spray II-Pine}

{Select marketing claims and graphics from “Marketing Claims” and “Graphics” sections below}

Active Ingredients:

Tetramethrin (CAS No. 7696-12-0)	0.25%
Sumithrin (CAS No. 26002-80-2)	0.15%
Other Ingredients*	99.60%
Total	100.00%

*Contains Petroleum Distillate

Keep Out of Reach of Children

CAUTION

See back [side] panel for First Aid and additional Precautionary Statements.

EPA Reg. No. 10806-41 EPA Est. _____

Net Weight: ____ oz (____ g)
{8 ounces through 1 pound}

{Back [Side] Panel}

First Aid

If on Skin or Clothing:	<ul style="list-style-type: none"> Take off contaminated clothing. Immediately rinse skin with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If Inhaled:	<ul style="list-style-type: none"> Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice.
If Swallowed:	<ul style="list-style-type: none"> Immediately call a poison control center or doctor for treatment advice. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

Note to Physician: Contains petroleum distillate - vomiting may cause aspiration pneumonia.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For medical emergencies call your poison control center at 1-800-222-1222. For product information call toll-free: 1-800-536-3170.

{Note: The First Aid statements' grid format will be used if label space allows, otherwise a paragraph format will be used.}

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Harmful if inhaled. Avoid breathing vapors or spray mist.

Personal Protective Equipment (PPE)

Applicators and other handlers must wear: long-sleeved shirt, long pants, shoes, socks and chemical resistant gloves. Some materials that are chemical-resistant to this product are barrier laminate, nitrile rubber, neoprene rubber and Viton \geq 14 mils. For more options, follow the instructions for category E on the chemical-resistance category selection chart.

User Safety Requirements

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate; do not reuse them.

User Safety Recommendations

Users should: wash hands before eating, drinking, chewing gum, using tobacco or using the toilet; immediately remove clothing/PPE if pesticide gets inside, then thoroughly wash and put on clean clothing; immediately remove PPE after handling this product. As soon as possible, thoroughly wash and change into clean clothing.

{Products labeled exclusively for indoor uses may omit the following Environmental Hazards statements:}

Environmental Hazards

This pesticide is extremely toxic to aquatic organisms, including fish and aquatic invertebrates. Do not apply directly to water, to areas where surface water is present or to inter-tidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment washwater or rinsate. See *Directions for Use* for additional precautions and requirements. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the area.

Physical or Chemical Hazards

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

READ ENTIRE LABEL BEFORE EACH USE.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not use this product in areas other than residential or non-food commercial areas.

Shake Well Before Use.

Hold can in upright position.

Apply in short bursts.

Use Restrictions

When used indoors: Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. Do not enter or allow others to enter the treated area until the spray has dried. Do not enter or allow others to enter treated areas until vapor, mists and aerosols have dispersed, and the treated area has been thoroughly ventilated. Wait 2 hours after application, then open windows, vents and doors for 2 hours. If an odor is still detected, additional ventilation is required. Do not use on humans, domestic animals or pets. Before spraying, remove pets/birds, cover fish aquariums and ornamental fish ponds and turn off aquarium systems. Do not apply when food is present. Do not use in food areas of food handling establishments, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where prepared foods are served,

such as dining rooms but excluding areas where foods may be prepared or held. Non-food areas are areas such as garbage rooms, lavatories, entries, vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage areas (after bottling or canning).

When used outdoors: Application is prohibited directly into sewers or drains or to any area like a gutter where drainage to sewers, storm drains, water bodies or aquatic habitat can occur. Do not allow the product to enter any drain during or after application. All outdoor applications must be limited to only spot or crack-and-crevice treatments, except for the following permitted uses: 1) Treatment to soil or vegetation around structures; and 2) Applications to building foundations, up to a maximum height of 3 feet. Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors and eaves) are limited to only spot and crack-and-crevice applications. Do not water the treated area to the point of run-off. Do not make applications during rain.

This product is formulated to kill common pests: Ants, Brown Dog Ticks, Carpet Beetles, Centipedes, Cockroaches, Confused Flour Beetles, Crickets, Firebrats, Fleas, Flies, Gnats, Mosquitoes, Rice Weevils, [Roaches,] Saw-toothed Grain Beetles, Small Flying Moths, Sowbugs and Spiders (excluding black widow and brown recluse).

To Kill Flies, Gnats, Mosquitoes and Small Flying Moths: Close all doors and windows and direct spray upward into center of room with a slow sweeping motion. Spray 5-10 seconds for average room. Keep room closed for 2 hours after spraying. Thoroughly ventilate room before re-entry. Sweep up and destroy fallen insects.

To Kill Ants (except Carpenter, Fire, Harvester and Pharaoh) and Crickets: Contact as many insects as possible with the spray in addition to thorough spraying of all parts of the room suspected of harboring these pests. Pay special attention to cracks, hidden surfaces under sinks, behind stoves and refrigerators, food storage areas and wherever these pests are suspected of hiding. To kill ants, treat doors, around window frames, areas under furniture and wherever these insects are seen or suspected. Repeat as necessary, but not more than once per week.

To Kill Carpet Beetles: Directly spray as many insects as possible. Spray both interior and exterior of upholstered furniture. Thoroughly spray both top and bottom of rugs and carpets. Also treat shelves, closets, areas under furniture and wherever these insects are seen or suspected. Repeat as necessary, but not more than once per week.

To Kill Exposed Forms of Confused Flour Beetles, Rice Weevils and Saw-toothed Grain Beetles: Find and destroy infested package goods. Remove all other items from pantry. Spray the shelves to kill any of the named insects present. Place clean paper on the shelves and return packages after shelves have dried. Repeat as necessary, but not more than once per week.

To Kill Centipedes, Firebrats, Sowbugs and Spiders (except Black Widow and Brown Recluse): Contact as many insects as possible with the spray. Also thoroughly spray all parts of the room suspected of harboring these pests. Pay special attention to cracks, crevices, hidden surfaces under sinks, behind stoves and refrigerators.

To Kill Brown Dog Ticks and Fleas: Remove and destroy pet's old bedding. Spray pet's sleeping quarters; around baseboards, window and door frames; wall cracks and local areas of floors. Repeat as necessary, but not more than once per week. Put fresh bedding in pet's quarters after spray has dried. Do not spray animals; treat dogs and cats with a flea and tick control product registered for use on pets before allowing them to enter treated area.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store upright in a cool, dry (preferably locked) area inaccessible to children and pets and away from heat, open flame and sources of ignition. **Pesticide Disposal and Container Handling:** Do not puncture or incinerate! **If empty:** Place in trash or offer for recycling if available. [This container may be recycled in

aerosol recycling centers. At present, there are only a few such centers in the country. Before offering for recycling, empty the can by using the product according to the label.] **If partly filled:** Call your local solid waste agency for disposal instructions.

{Per PR Notice 2007-4 the batch code/lot number will appear on the label or container.}
